Home Renovations: How Do They Affect Your Insurance?

Here are a few improvements we need to know about to be certain your coverage is up-to-date:

1. Adding Square Footage - This could increase the Replacement Cost of your home.
2. Customization - Upgrading your kitchen and bathrooms, adding a deck, or finishing your basement can also impact your Replacement Cost.
3. Liability Coverage - Adding a pool can bring tons of fun but also come with risks. We will make sure you have the proper coverage with an Umbrella Policy.

We are always here to review your policy to be sure you are fully covered!
